TITLE

VETERINARY MEDICAL OFFICER

NO. LABELS

- All research animals which are to be exposed to the material must be held only in isolated facilities with insect and rodent control program in effect.
- Materials, derivatives, packaging, containers, and all equipment in contact with the imported products shall be sterilized or considered a biohazard and must be disposed of accordingly.
- Pens, cages, bedding, waste, and dead animals in contact with these materials shall be sterilized or considered a biohazard and be disposed of accordingly.
- This permit authorizes the transport of this material into your research and development facilities. Introduction of this material into the production areas of your USDA, APHIS, licensed establishment must be approved by the Center for Veterinary Biologics (CVB). Storage locations, movements, and use within your licensed premises must be reported to CVB.
- Work with the permitted material shall be performed in accordance with the condition requirements described in this permit. Subsequent distribution to another state is prohibited without prior authorization of APHIS (in the form of an interstate transport permit, written correspondence, or reference to an applicable guideline for no import permit required). Any change in use, treatment, disposal, and distribution within the state may require approval from the state and/or local government.
- This permit does not exempt the permittee from responsibility for compliance with any other applicable federal, state, or local laws and regulations.
- A copy of this permit should be included with the shipping documents.

TO EXPEDITE CLEARANCES AT THE PORT OF ENTRY, BILL OF LADING, AIRBILL OR OTHER DOCUMENTS ACCOMPANYING THE SHIPMENT SHALL BEAR THE PERMIT NUMBER
