or if another legal entity, maintain an address or business office in the United States with a designated individual for service of process; and serve as the contact for the purpose of communications associated with the import, transit, or transport of the regulated article(s). **Note: Import/Permit requirements are subject to change at any time during the duration of this permit.

- ***Materials shall be consigned directly to the permittee address specified above.
- It is incumbent upon the permittee to uphold proper biosafety procedures and protocols to protect human and animal health as per institutional policy and recommendations published in Biosafety in Microbiological and Biomedical Laboratories, current edition.
- All studies with any material/organism transported with this permit must be conducted at your Research and Diagnostic Center Laboratories and associated research farms (enhanced Biosafety Level 2 (BSL-2 plus) and the Wilmont Research Farm (enhanced Animal facility Biosafety Level 2 (ABSL-2-plus) which have been inspected and approved by the USDA. These facilities shall be reinspected every 3 years. This includes any US origin livestock and poultry pathogen such as PRRS, LPAI, PEDV, etc. and so forth.
- Importing facility is subject to routine inspection by USDA, APHIS personnel during normal business hours to ensure compliance with permit restrictions.
- All research animals which are to be exposed to the material must be held only in isolated facilities with insect and rodent control program in effect.
- Materials, derivatives, packaging, containers, and all equipment in contact with the imported products shall be sterilized or considered a biohazard and must be disposed of accordingly.
- Pens, cages, bedding, waste, and dead animals in contact with these materials shall be sterilized or considered a biohazard and be disposed of accordingly.
- This permit authorizes the transport of this material into your research and development facilities. Introduction of this material into the production areas of your USDA, APHIS, licensed establishment must be approved by the Center for Veterinary Biologics (CVB). Storage locations, movements, and use within your licensed premises must be reported to CVB.
- Work with the permitted material shall be performed in accordance with the condition requirements described in this permit. Subsequent distribution to another state is prohibited without prior authorization of APHIS (in the form of an interstate transport permit, written correspondence, or reference to an applicable guideline for no import permit required). Any change in use, treatment, disposal, and distribution within the state may require approval from the state and/or local government.
